About Us

Mesa West International, Inc. is a leading supplier of metal finishing equipment, systems and accessories for the plating industry.

Located in Southern California, Mesa West has been providing process equipment and systems for over 35 years.

Mesa West designs and builds custom equipment for many industries including Electronic, Aerospace, Automotive and General Finishing. Our experience in design and manufacturing allows us to provide anything from a single tank to a complete automated turnkey system.

We are committed to providing a wide variety of equipment and application-specific solutions to meet all your equipment needs.

Everything we build is carefully designed to combine top-notch quality with cost effective pricing.

We provide dedicated and experienced project management to plan and organize your project to ensure its success.

Services

Mesa West offers a complete line of products. All of our equipment is designed to be easy to install, operate and maintain. Mesa West can provide as

little or as much installation services as you need.
